HSC - 54.31%
June 2015 - Feb 2016

New English School Shirshi,Khed Ratnagiri

SSC - 75.20%
June 2013 - March 2014

PROJECT

Portfolio Ver .1 ↗
The MERN Portfolio Builder is a full-stack web application I developed to allow users
to create, manage, and showcase their personal portfolios. Using the MERN stack
(MongoDB, Express.js, React.js, Node.js), I designed a dynamic platform where users
can display their projects, skills, and experiences, with a secure backend for user
authentication and portfolio data management. This project integrates both frontend and
backend technologies to deliver a seamless,user experience.
Frontend: ReactJS, CSS.
Backend: Node.js, Express.js
Database: MongoDB Atlas Cloud
Hosting: Render.

file-sharing-app ↗
A file-sharing app can be developed using various technologies depending on the
requirements, such as real-time sharing, scalability, security, or platform-specific needs.
Below are the commonly used technologies grouped by functionality.

Portfolio Ver .2 ↗
Frontend: ReactJS, Type Script ,Tailwind CSS.
Backend: Node.js, Express.js
Database: MongoDB Atlas Cloud
Hosting: Render.

To Do WEB-Application ↗
The Todo Application is a frontend project designed to help users manage tasks efficiently.
Users can add, view, update, and delete tasks. The application offers an intuitive interface
for organizing daily activities, ensuring productivity and task prioritization.
MongoDB,Express JS,React,Node JS ,Rest API

Expense tracker
The **Expense Tracker** is a full-stack web application designed to help users track their income and expenses, manage their budgets, and generate detailed reports. Built with the MERN stack (MongoDB, Express.js, React.js, Node.js), this application offers an intuitive interface for managing personal finances, ensuring users stay on top of their spending habits and financial goals.

SKILLS

- **Programming Languages:** HTML, CSS
- **Frameworks & Libraries:** ReactJS, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Development Tools:** Git, VS Code, Postman
- **Version Control:** GitHub,
- **APIs:** RESTful APIs, Node mailer

- **Front-End:** Responsive Web Design, Material-UI
- **Back-End:** Server-Side Rendering, Middleware Implementation, JWT Authentication
- **Full-Stack Development:** MERN Stack (MongoDB, Express.js, React.js, Node.js)
- **Testing:** Debugging
- **Automation:** Google Apps Script, Workflow Automation
- **Deployment:** Render

CERTIFICATE

MERN Full Stack Developer
Aptech Institute Andheri Dec - 2024

SQL Database
ICIT institute in Thane.
basic syntax of the SQL language, as well as database design with multiple tables, foreign keys, and the JOIN operation

LANGUAGE

Marathi Advanced
Read , Write , Speak

English Intermediate
